

Eslam Elattar

UI/UX Designer | Full Stack .NET Web Developer

eslamelattar2004@gmail.com | Phone: +20 1280792214 | Location: Az Zaqāzīq, Sharkia, Egypt
LinkedIn: linkedin.com/in/eslam-elattar | Behance: behance.net/EslamElatar

Summary

Results-driven UI/UX Designer and Full Stack .NET Web Developer passionate about bridging the gap between elegant design and high-performance code. Skilled in crafting user-centered interfaces with Figma and engineering scalable backends using C#, ASP.NET Core, RESTful Web APIs, and SQL databases. Experienced in end-to-end product development, clean architecture, and responsive design, delivering scalable web and mobile solutions aligned with business goals.

Experience

Full Stack .NET Web Developer Trainee — Digital Egypt Pioneers Initiative (DEPI) 07/2026 – Present | Egypt

- Participating in an intensive Full Stack .NET Web Development program powered by MCIT (DEPI).
- Architecting and developing backend Web APIs using C#, ASP.NET Core, and Entity Framework Core.
- Managing relational database integration using MySQL/SQL Server and applying Clean Architecture principles.
- Utilizing Git & GitHub for version control and collaborating following Agile/Scrum methodologies.

UI/UX Designer — Sporton 02/2025 – 04/2026 | Cairo, Egypt

- Designed modern web and mobile user interfaces tailored to sports and interactive user experiences.
- Created low-to-high fidelity wireframes, user flows, and interactive prototypes in Figma.
- Established comprehensive Design Systems and UI kits to ensure visual consistency and developer handoff efficiency.

UI/UX Designer Trainee — National Telecommunication Institute (NTI) 08/2025 – 09/2025 | Cairo, Egypt

- Completed an intensive UI/UX design track focused on user-centered research and product strategy.
- Conducted user research, defined user personas, mapped user journeys, and crafted Information Architecture (IA).
- Built responsive layouts and interactive prototypes, applying color theory, typography, and usability principles.

Projects

RentGo — Car Rental Platform (Figma, UI/UX, Design System)

- Designed a modern car rental mobile and web application facilitating seamless vehicle browsing and reservation.
- Created intuitive user journeys, interactive prototypes, and a scalable UI design system focusing on user accessibility and simple checkout flows.

Etisalat e& Redesign Case Study (Figma, User Research, Wireframing)

- Redesigned key user touchpoints for telecom application services to improve user engagement and task completion rates.
- Performed UX audits, usability testing, and visual overhaul prioritizing clarity, hierarchy, and brand alignment.

Coursera UI/UX & Web Development Projects (Figma, HTML5/CSS3, UX Research, Responsive Web Design)

- Completed practical hands-on projects focusing on user-centered design, prototyping, and frontend implementation.
- Applied industry-standard UX methodologies including wireframing, usability testing, and visual design principles across multiple platform case studies

Web & Mobile Application Tasks (ASP.NET Core, C#, Web API, HTML/CSS, Figma)

- Developed responsive web interfaces and integrated RESTful APIs following Clean Architecture standards.
- Executed end-to-end solutions from wireframing user interactions in Figma to implementing database schemas and backend endpoints.

Skills

Full Stack & Software Engineering	UI/UX Design & Product Strategy
• Languages: C#, HTML5, CSS3, JavaScript • Backend & Frameworks: ASP.NET Core Web API, Entity Framework Core • Databases: SQL Server, MySQL, PostgreSQL • Frontend Development: Responsive Web Design, Html , CSS • Architecture & Tools: RESTful APIs, Clean Architecture, Git, GitHub, Agile/Scrum	• Design Tools: Figma, Adobe XD, Wireframing Tools • UX Research: User Personas, Journey Mapping, Information Architecture (IA) • UI & Prototyping: Interactive Prototypes, High-Fidelity UI, Design Systems • Usability & Testing: Usability Testing, Responsive Design, Design Thinking • Soft Skills: Problem Solving, Communication, Fast Learning, Team Collaboration

Education

Student at Computer Science — Zagazig University 10/2024 – Expected 07/2027

Faculty of Computers and Informatics | Focus on Software Engineering, Web Technologies, Databases, and Data Structures.

Certificates & Programs

- **Full Stack .NET Web Development Track:** Digital Egypt Pioneers Initiative (DEPI) — (2026)
- **UI/UX Design Professional Certificate:** National Telecommunication Institute (NTI) — (2025)
- **Professional Training Certificate (1 Year):** Sporton — UI/UX Design — (2025–2026)

Languages

Arabic: Native | **English:** Professional Working Proficiency
