Summary

Results-driven UI/UX Designer and Full Stack .NET Web Developer passionate about bridging user-centered design with scalable backend architectures. Skilled in crafting intuitive interfaces with Figma and engineering RESTful Web APIs using C#, ASP.NET Core, and SQL databases. Experienced in end-to-end product development, Clean Architecture, and responsive web/mobile solutions.

Technical & Design Skills

- **Fullstack .Net:** C#, ASP.NET Core Web API, Entity Framework Core, SQL Server, MySQL, RESTful APIs, Clean Architecture, Git/GitHub.
- **UI/UX :** Figma, Responsive Design, User Research, Wireframing, Design Systems, Prototyping.
- **Frontend :** HTML, CSS, JavaScript
- **Soft Skills:** Problem Solving, Team Collaboration, Cross-Functional Communication, Communication.

Experience

Full Stack .NET Web Developer Trainee

07/2026 – Present | Egypt

Digital Egypt Pioneers Initiative (DEPI)

- Architecting and developing backend Web APIs using C#, ASP.NET Core, and Entity Framework Core applying Clean Architecture.
- Managing relational databases using SQL Server/MySQL and implementing unit-of-work/repository patterns.
- Utilizing Git & GitHub for version control and collaborating within Agile/Scrum cross-functional environments.

UI/UX Designer Trainee

02/2025 – 04/2026 | Cairo, Egypt

Sporton

- Designed modern web and mobile user interfaces tailored to interactive sports application experiences using Figma.
- Created low-to-high fidelity wireframes, user flows, interactive prototypes, and comprehensive Design Systems to optimize developer handoff.

UI/UX Designer Trainee

08/2025 – 09/2025 | Cairo, Egypt

National Telecommunication Institute (NTI)

- Conducted user research, defined user personas, mapped user journeys, and structured Information Architecture (IA).
- Executed usability testing and applied design theory to produce responsive, high-accessibility UI layouts.

Projects

- **Sporton — Interactive Sports Platform** (Figma, UI/UX, Design System)
Designed complete end-to-end web and mobile interfaces for interactive sports services, developing custom UI

kits and design system tokens to ensure design-to-code alignment.

- **RentGo — Car Rental Platform** *(Figma, UI/UX, Responsive Design)*
Designed a modern car rental web and mobile application facilitating seamless vehicle browsing and instant online reservation flows.
- **Etisalat e& Redesign Case Study** *(Figma, User Research, Wireframing)*
Redesigned key user touchpoints for telecom services to improve user engagement, navigation clarity, and task completion rates.
- **University Academic DB System** *(SQL Server, Database Architecture)*
Designed and optimized relational database schemas and backend logic for academic course evaluation, student records, and system integrations.

Education & Certifications

- **Student at Computer Science** — Zagazig University (Faculty of Computers and Informatics) *(Expected 07/2027)*
- **Full Stack .NET Web Development Certificate** — Digital Egypt Pioneers Initiative (DEPI) *(2026)*
- **UI/UX Design Professional Certificate** — National Telecommunication Institute (NTI) *(2025)*
- **Ui/UX Design intern Certificate (1 Year)** — Sporton (UI/UX Design) *(2025–2026)*
- **CS50 Basics of Programming With C++ & Database** — Octopus Academy (Feb 2024 – Jul 2024)
